

Usually I end up writing some long blurb to introduce my albums,
but I'm watching Master of None, and don't really feel like doing that.
I will say that this is the 100%-comfortable-in-my-own-skin album, and I hope y'all dig it.

THANX

I'm not often as hungry much as I used to be. Maybe it's just a result of getting older. Things just get different as we grow. I am still grateful for being able to keep on in a different manner. First, I wanna thank everybody who worked on this album. This one might be my favorite despite the lack of hunger. This is the first time I've had an album done well before the release date, so I've been able to sit and enjoy a complete labor of love. I also wanna thank everybody that told me that I was lying like hell when I said I was gonna stop releasing music to the public. You were right. I'm fulla shit. The last group I wanna thank are those who don't show interest in my music. I thank you, because you made me realize that I ain't tryna impress nobody and that I'm just doing it, because music is my savior. But your job's done. Thanks for your time. ˘_(`´)/˘ I'll probably never be famous or anything like that, but at least I'm enjoying this as I do it. To all artists out there, if you're doing it just to be like someone else and get attention, probably stop. You'll probably be another... like... I don't know... J'Kwon or something. But if you're doing it because you have the passion, NEVER stop. I'm not. I think I'll speed up now. Try and catch me.
