STAY ON

The new EP "Stay" follows Simple CUT's debut 2015 album "In Your Arms" and continues their unique mix of soft layered electronic sounds and guitars. SC's Sergey says "The main thing for us is to retain a good balance in every aspect of our music, and deliver our best with each song. That's why we continued working with Mikhail Leontiev. Mikhail has extensive experience as a producer and we have similar tastes in music that helps us understand each other very well".

Consisting of two brand new songs and incredible remixes of the title track, "Stay" finds Simple CUT introducing itself to a wider international audience. With the title song, they've captured a truly engaging synthpop sound that fans new and old are going to fall in love with. Sergey says "I think 'Stay' is one of our best tracks to date".

The second new song "La nuit de l'horizon" may be a surprise for existing fans... previously their instrumental compositions were uptempo 120bpm numbers. With this one, they deliver an atmospheric, chilled out, nearly ambient vibe. Another must hear.

Raspatory (Russia)

Raspatory is a project that always offers listeners something unexpected while collaborating with other artists. This time is no exception. Raspatory made a hard sensual remix of "Stay" that in some way reminds one of EBM gurus Nitzer Ebb.

3 STAY (TEKNIQUE REMIX) (FEATURING JEFF BARRINGER) 6:00

Teknique (United States)

This remix by Teknique brings a classic synthpop sound and features Jeff Barringer's great vocals during the chorus. Teknique have applied their own vibe to it and it fits well within their own original catalog. Their new EP "Redeem" was released on March 15th of this year.

4 LA NUIT DE L'HORIZON 3:12
